## W E L C O M E T

At the heart of central Italy's beautiful and mountainous region of Abruzzo lies the Majella National Park, rich with lush pastures, dramatic gorges, beech forests, crystal-clear streams and spectacular mountain peaks. It is home to abundant flora and fauna, and a number of fascinating medieval hermitages, frequented for over 1000 years by monks seeking solitude and tranquillity.

Tucked away within the Park is the tiny traditional village of Decontra, its rustic buildings surrounded by meadows and mountains, and perched at the lip of a great gorge. The beautifully restored cottage of 31 Decontra offers comfortable accommodation, simple furnishings, extensive gardens, a plunge pool and magnificent views.

If the purpose of your holiday is to explore somewhere new, to step back in time a little, to relax and unwind, to go for short strolls and long picnics with magnificent views, to enjoy friendly hospitality and the wonderful Italian food and wine of the region, or simply to get away from it all...you will receive a warm welcome at 31 Decontra, and return home feeling relaxed and rejuvenated.

## A T A G L A N C E
